

ASSET TECHNICAL BULLETIN-01-17-07

Manage SSN Validation:

The MCI/SSN Validation process in ASSET will be unavailable this weekend (Jan 20th & 21st). **Please do not add or change ASSET customer records this weekend.**

Hundreds of thousands of new records are being added to the MCI database because SSI individuals are being added to CARES this weekend.

CARES and ASSET share the MCI application. If you update or add a customer record in ASSET this weekend you will likely be required to do additional follow up work next week

Questions about the technical bulletin may be directed to either Diane Bartels or Matt Mita by calling the DWS Automated Call Center at 608-261-6317 and selecting option 3. Or, if you prefer, email Diane.Bartels@dwd.state.wi.us or Matt.Mita@dwd.state.wi.us.

Thank You.
