

WJOS/ERS/WebIntelligence Changes

The following changes were made over the weekend to WJOS, ERS, and WebIntelligence:

- Job Orders in **Off JobNet May Reopen** status now have a Preview button available.
- The DOT code is no longer present on job orders.
- In addition to the SIC code, the NAICS (North American Industrial Classification System) code is now a requirement on job orders and on the Business Summary Screen in ERS. As soon as staff are comfortable with the NAICS coding, the SIC code will be removed.
- WebIntelligence reports have been changed. The SIC code has been removed and replaced with the NAICS code.
