## **Coming Soon... JobNet Business!**

JobNet Business, which combines the existing Employer Record System and Wisconsin Job Order System, will be implemented on Monday, November 14, 2005 for both staff and employers.

Staff training will take place in the weeks preceding implementation. All training will be self-paced and computer-based, meaning it takes place at your workstation. A training environment will be available for staff to practice entering job orders and managing employer records. Two Wisline or Wisline Web sessions are also planned, to give staff an opportunity to ask questions of the implementation team.

Training materials will be available on the JobNet Business site for employers. The employer side will have a fresh look, including the same color scheme as JobNet 3.0. Employers who are currently registered will not need to register again. Informational notices about the new system will begin appearing on the WJOS employer login page in late October.

Please see the JobNet Business Fact Sheet for a short list of highlights in the new system.
