

## JobNet Business System Changes

- Job Order – Details Tab. When assigning a worksite to a job order, you can select more than one site at a time by using the shift/control buttons to highlight them and then clicking on the ‘Select’ button.

- Datagrids will now display up to 20 rows, wherever possible.
- New ‘My Staff Information’ link from the menu tree allows staff to change their office number quicker.

- A WDA sort was added to system reports wherever possible.
- Manage Sites – Hiring Summary. Added ‘Employer’s Web Page’ to list of Recruitment Methods.
- Spellchecker will no longer scan the staff comments field on a job order.
- When a new contact is created in the employer version of JobNet Business the job order contact flag is now automatically set to checked. This allows employer contact names to appear in the dropdown box on the job order.

- Email Preview problems fixed, the employer couldn't see the hours of work.
- Additional Hours field is no longer showing up twice in Preview mode.

=====

This message has been posted to the web site (<http://www.wisconsinjobcenter.org/erswjos>) that holds the WJOS/ERS announcements. The archive holds the current edition, and all previous editions.

These editions are delivered in Adobe PDF format for on-line reading or downloading. The web site has a link to the DWD Viewers Download Page (<http://dwd.wisconsin.gov/viewers.htm>) to find links to software which may be necessary to view the publications.
