## **What to Do if You Recently Accessed CareerBuilder.com from Your Computer**

DWD is currently recommending that anyone who accessed CareerBuilder.com **since Monday, September 22nd** should run whatever virus scanning/security software they have on their computer to detect and remove anything that may be there.

If you do not have a current version of security/scanning software, DWD is recommending that you take whatever action you can to install/upgrade protection software and run it as soon as possible.

For DWD staff, any additional questions on upgrades of software, etc. should go through normal channels for software purchase/installation, etc.
